|---|--|--|
|  | <p>1 x Roland acoustic chorus 100</p> | <ul style="list-style-type: none"> ➤ 100-watt, tri-amped configuration: 50W x 25W x 25W ➤ Two-way, three-speaker system: one 12" and two 5" speakers ➤ Two independent channels, each with three-band EQ and effects control ➤ Mic level XLR input for vocal accompaniment or guitar without pickup ➤ Built-in notch-filter for eliminating feedback and howling |
|  | <p>1 x Marshall AS50R acoustic amp</p> | <ul style="list-style-type: none"> ➤ The AS50R is a compact and portable 50 Watt combo amplifier specially designed for use with acoustic instruments. Between its two channels, this combo has the flexibility to handle instruments with transducers, such as piezo or magnetic pick-ups (channel 1), or microphone for either vocal or instrument reproduction (channel 2). ➤ The built-in Chorus effect is assignable to either or both channels and the Reverb can be controlled and balanced between the channels to create just the right ambience. If you want to add further effects, then there is an on-board parallel effects loop which can be balanced between the channels in the same way as the Reverb. ➤ One of the most difficult aspects of amplifying some acoustic instruments is feedback. To help you eliminate this, the AS50R features several 'anti-feedback' controls, including a Phase switch and a frequency controllable Notch Filter. The combination of these two elements will give you precise control of the frequencies where feedback is likely to occur and help you to eliminate them. |
|  | <p>3 x Shure Mic SM58 SE 1x Shure Mic SM58E 4 x Microphone Stand sev. XLR Cables</p> | |
|  | <p>Sev. 6.35mm TS Jack Guitar Cables</p> | |

For larger venues, where our own equipment is insufficient, we are working with several sound engineers and backline rental companies we've been working with and trusting for 20+ years.

Correct as of May 8th, 2024. List is constantly being extended.
